MEMORANDUM FOR: Presidential Briefing Coordinator  
FROM: Director of Central Intelligence  
SUBJECT: South African Railroad Network

I'd like to refresh on the South African railroad network. We gave a briefing to the President on this one. Specifically, I am interested in the alternative ways for the Zairian copper to get out. I read something the other day that indicated some of it goes through Rhodesia and out by South African ports. Is that correct?

Would you find out for me who said, "If you don't stay for the short run, you don't have to worry about the long run." I think it was Churchill but I'm not sure.
